### Description

Medium early, high yielding variety (108-112 days from germination to fruiting). Russian variety. The plant is indeterminate. Fruits rounded, weighing up to 120 grams, with a characteristic variegated color - from green with light green stripes in the technical maturity to red with yellow stripes in biological ripeness. Taste qualities - excellent. At the same time the plant produced 20-25 fruits. Perfect for all types of canning and fresh consumption. It has good transportation and disease resistance.
