## Black and Blue tomatoes: BOSQUE BLUE BUMBLEBEE Tomato

---

### Description

Mid season variety. Indeterminate, regular leaf plant. Bosque Bumblebee is a rare eye-catching tomato that is bright yellow, with dark blue shoulders. They develop the blue-purple color as they grow, and the more sun that each tomato receives, the deeper that color becomes. Bosque Bumblebee is a small salad-type tomato, though still larger than a cherry tomato at about two inches in size, and it has a mild, almost citrusy flavor with an appealing juicy texture.
