Description

Compact determinate plants with woolly grey-blue foliage grow about 40 cm tall, excellent for containers. Regular leaf. Fruits are red, round or plum-shaped, fuzzy, with golden striped, some with a little tip at the blossom end, weighting about 20-30 gr., firm and meaty, with bright pink interior. Very nice bright flavor, very close to what we would call „excellent“. Good for salad, but it is also a great canning tomato. Very unusual.
