Description

Indeterminate. The earliest, highest-yielding grape tomato in our trials is also the most attractive and delicious! Mini, sweet yellow, pear shaped cherry tomatoes with up to 80 fruits per truss. Tomato 'Ildi' is a cordon variety that naturally stops growing at 150-180cm carrying 4-5 trusses per plant. Trusses keep well and can be picked, hung in a cool garage, and kept for weeks without the fruit dropping.
