### Description

Probably one of the prettiest varieties of Cayenne chili peppers in the world, the Purple Cayenne is impressive not only by its appearance but also by its delicious taste. A tad smaller than a traditional Red or Yellow Cayenne, the Purple version usually reaches 6 to 8 cm in length and, as its name indicates, goes from a pale green to a beautiful dark and glossy purple before turning red at the very last stages of maturity. It is the hottest of the Cayenne pepper variety so still relatively mild for chili connoisseurs while its flavor is slightly savory. One of the major traits of the Purple Cayenne plant is undeniably its beauty which you will be able to enjoy throughout the season, especially when it has reached close to 1 m in height and is crowned by an array of small purple and white little flowers.
